Alchemy and Argento

Alchemy and Argento Silks – a new elegance.

James Hare has used the natural world as inspiration for the new fabric collections, Alchemy and Argento Silks. The texture and striking patterns of minerals, rocks, marbles and metals have been transformed into dynamic designs.

A neutral colour palette of grey and soft earthy shades is offset with punches of jewel brights and muted pastels resulting in a smart, sophisticated range that is both elegant and timeless. The shimmer of metallic, luxurious velvet and a drape similar to molten metal creates a collection with a decadent feel suitable for drapery, soft furnishings, wallcoverings and upholstery.

The introduction of the Stocked Silk Wallcoverings collection further encourages the layering of texture. Silk covered walls produce a warm, sumptuous and glamorous look with an intense depth of colour equally usable in a contemporary or traditional setting.

Alchemy

An innovative combination of fabrics capturing the natural beauty of geological formations with names such as Quartzite, Carrara and Mystic. Contemporary accents like sulphuric yellow react with layered neutrals for elegant interiors with a glamorous edge.

Deco

A vibrant geometric design, displayed here in jewelled blues and pastels, results in a sophisticated makeover with a nod to the Art Deco movement.

Layered Neutrals

Neutrals are built up with subtle tones making them simple to coordinate with fully saturated colours. The combination of natural textures and more traditional designs ensures the fabrics are easy to use in a town or country setting, with the “edge” sought after by the discerning client.

Stocked Silk Wallcoverings

Silk wallcoverings produce dramatic walls with natural texture and intense depth of colour which are a smart and stylish alternative to traditional wallpaper. Virtually all James Hare fabrics can be paper backed to create bespoke wallcoverings but now the company has launched their first Stocked Silk Wallcoverings collection. Sourced from their extensive range of silk plains, this collection has a minimum order of one metre and is an exciting addition to their interior service, especially as silk wallcoverings are a strong emerging trend.

Chaise: Carrara Velvet. Throw and Cushion: Mineral Silk, Miramar Silk.

Argento Silks

A semi-plain range of rich textured silks with iridescent surfaces creating an oxidised metallic rainbow of colours.

Decadent Luxe

Cool, calming fluid silks encourage an elegant interior, which echo the natural mood of the collection.
